*NOTE.—The foregoing sketches form the beginning of what is designed ultimately to embrace a complete biographical dictionary of the Alumni of Centre College. It being deemed best to publish the notices of the dead first, an attempt was made to procure material for these by sending out circulars; but several circumstances, (especially the late return of some of the circulars and the non-return of others,) have prevented the complete success of this undertaking.*

*Any Alumnus having a circular, or receiving one hereafter, will oblige us by filling it with his own name; and all persons knowing any facts in the lives of the deceased, or observing any error in the matter already printed, will confer a favor by communicating them to the Secretary of the Faculty, to be used in the future, as the publication of these sketches will be continued next year.*

	Reader,	. . . . .	Evans' Otto.
	Egmont,	. . . . .	Goethe.
	Dictionary,	. . . . .	Adler.

In this department special attention is given to the German language. The recitations of the College are so arranged that any student can pursue the study of the German, either to fill out his complement of studies, or as an extra. Members of the regular Junior Class are allowed to substitute German for the Calculus. An opportunity is also given for studying French, Spanish and Italian. This department is under an instructor who spent ten years in the Universities of Germany, a portion of the time as Professor of Modern Languages in the University of Jena.

### LATIN.

In this department special attention is paid to the analysis of sentences, the formation and derivation of words, and Latin prose composition. Grammatical and linguistic instruction is based upon the results of comparative philology. To impart a knowledge of Roman literature is also made a special object. During the Sophomore year weekly written essays are required upon assigned topics connected with Ancient History and Mythology.

### MATHEMATICS.

During the Junior year the student of Mathematics is introduced to some of the wonderful results of recent research in that department. He is thus made acquainted with the elements of Quaternions, Determinants, Invariants, Covariants, Elliptic Functions, &c., and is qualified for the further prosecution of such studies in a post-graduate or private course.

### CHEMISTRY.

An opportunity will be given to persons desiring to continue the study of Chemistry beyond the time allotted to the class; and a special course will be furnished students who propose to take up the study of Medicine in the future.

### PREPARATORY DEPARTMENT.

This department has been organized by the Board of Trustees of Centre College. Its instructors are appointed by the Board, and a general supervision of the school is lodged with the College Faculty.

While the course of instruction is especially adapted to prepare young men for the Freshman Class, it is intended at the same time to furnish a liberal English education to any who may desire it.

Tuition in the Preparatory Department for session of five months is: Classical Department, \$25; English Department, \$20; Primary Department, \$15. No contingent fee is charged. Sons of ministers and candidates for the ministry received at one-half the foregoing rates. Payment in advance required in all cases.

### RELIGIOUS INSTRUCTION.

The recitations of each day are opened with the worship of God. All stu-

dents are expected to attend these services, the public preaching of the gospel, and a recitation in the Bible on the Sabbath, unless specially excused.

### EXAMINATIONS.

There are two public examination of all the classes, one in the middle of the College year, and the other at the close, held before a committee of the Synod, and conducted by each professor in his own department. These examinations are either oral or written, or both combined. The final examination of the Graduating Class closes the second Thursday in May.

### RANK IN SCHOLARSHIP.

The rank in scholarship of the graduating class of each year will be indicated on the Commencement programme as follows: First-Class Scholars will be assigned an Oration having some prefix; Second-Class, an Oration; Third-Class, a Dissertation; Fourth-Class, a Disquisition; Fifth-Class, an Essay.

The results of a sessional examinations are combined with those of the recitations, *attendance* and *conduct* of the student during the Term, and the average decides the relative class-standing of the student for that Term. The class-standing thus determined *will hereafter be published in the Annual Catalogue.*

### DEGREES.

The degree of A. M. is conferred in course on every graduate of three years standing, who shall have sustained a good moral character and pursued professional studies during the interval, and who shall have made application for the degree one day or more previous to the Annual Commencement.

### COMMENCEMENT—VACATION.

The session opens on the first Monday of September and closes on the third Thursday of June, on which day the Annual Commencement is held. A recess is given during the Christmas holidays.

### TUITION AND OTHER FEES.

Tuition, including a contingent fee of \$5, is \$45 per annum, is payable semi-annually in advance.

The sons of ministers of the gospel, of every denomination, receive their tuition free; and the same privilege, under proper restriction, is extended to all young men of limited means and good character. No one will be excluded because unable to pay the ordinary charge for instruction, but will be welcome to all the privileges of the College without incurring pecuniary obligation. The question of future compensation will be optional with each one.

The contingent fee of \$5 annually for janitor's hire, fuel in College rooms, etc., *is required of all.*

### BOARDING.

The students board and lodge in private families, in which they enjoy the advantages of Christian society and are thus preserved from many temptations. No fixed rate can be stated for the cost of living, as this varies with the price of provisions, fuel, etc. During the current year the prevailing rates for board, including fuel, were from \$3.50 to \$5 per week.

### COLLEGE HOME.

For many years cheap living for her students has been felt to be one of the

most pressing wants of our College. To secure this end, very comfortable rooms, sufficient to accommodate forty young men, have been fitted up in the old College building. These rooms, comfortably furnished with stove, chairs, beds, table and washstand, are given free of charge for rent to applicants of good character and limited means.

To those who have taken their meals at the "Home," boarding has been furnished at the cost of materials and their preparation, which for the present term has amounted to \$2.75 per week ; washing \$1 per month additional.

The entire expense of a student for the term of forty weeks, including board, washing, fuel, lights, and the contingent fee of \$5, need not exceed \$140, or thereabouts.

Some vacancies will exist at the end of the present year, and worthy young men who may desire to avail themselves of this opportunity for a cheap education, can make application to the President or Vice President of the College, from whom full information may be obtained. Preference will be given to those who may desire to pursue a full course of study.

Inasmuch as bequests to educational and charitable institutions are not infrequently diverted from their object through a mistake in the corporate name, we deem it advisable to call special attention to this matter.

There are two Literary Societies connected with the College. They hold public exercises on the 22nd of February, and on Monday and Tuesday preceding Commencement.
